

ESM Customers Save with Group Rates from Co-operators

ESM Customers save 15% on property insurance with Co-operators

All ESM Customers qualify for a minimum 15% discount from regular broker rates for home, condo, tenants, seasonal and revenue property insurance. Regular broker rates are the rates you would receive from one of the many Co-operators retail locations.

The average policy is just under \$1,000 per year. A 15% discount is about a \$150 per year savings. If you own a home, the discount will be more. If you are a renter, the value of the policy is smaller and the discount will be less.

How to get your quote

The group insurance program is only available through the Co-operators contact centre. In order to receive the group rates, you must call a Co-operators licensed insurance representative in their contact centre at 1-800-387-1963 and mention you are an "Endless Savings Client". You will then receive full details and these special rates.

What if my current insurance is not due?

If you are mid way through your current property insurance term, you can still call for a quote. With a quote, you will know the savings that Co-operators can provide and you can decide if you want to switch once your current insurance expires.
